Iris Introductions

ELIZA KAY — Among the first tall bearded iris to bloom. The very large rounded, full flowers of neyron rose (Wilson #623/2) are lightly laced and have a very showy, long red beard. 32 inches tall. **\$15.00**

LILAC SNOW — Huge, wide, crisp lilac flowers that sparkle like new snow. Very wide at the hafts, heavily ruffled and just enough lace for daintiness. If the weather is warm this is a true lilac color but if cool it is much lighter in color. Does not fade, rather the heat adds the color. Either way this is one of the most beautiful iris I have seen. 40 inches tall on well branched stalks. **\$20.00**

SUGAR BABE — A complete self, a deep orchid with that "southern look." A wonderful show specimen as under the electric light it is very bright and showy; won Best Seedling in our local show. To me the color seems like a silvered mulberry. Standards and falls are heavily laced, wide, ruffled, of heavy substance; closed standards and flaring falls. 40 inches tall, well branched, blooms early and for a long time. **\$25.00**

LIME JOY — The very green buds open into the most ruffled flower imaginable. Huge lime standards of ruffles and frills, extra wide, domed and tightly held. The falls are snow white with a wide ruffled edging same color as the standards. Thick orange beard. The substance is extra heavy and the branching is adequate. 34 inches tall. Midseason. H.C. 1960 **\$25.00**

1960 Iris Introductions

HOPE DIVINE — When this iris first bloomed in my seedling bed my garden visitors called it "The Most." Truly, it IS! Then, in the midst of our fun, another guest arrived; as she looked she said, in a hush voice, "Hope Divine, we always hope for one like THAT but only God could give it to us." Hence the name. Huge, gorgeous pinkish lavender-orchid. The standards are ruffled and have a deep border of lace, they are not shirred or crimped. The lightly flaring falls are ruffled, have a lacy edging and are colossal in width and general size. The huge, very wide standards are closely held even when they are closing up. This iris won the majority of the votes in the popularity poll at the Greater Kansas City Iris Test Gardens in 1959. It put on a wonderful showing there on a first year plant, blooming from May 14th to June 5th. **\$15.00**

BELLE PRAIRIE — Named for the place of my birth, near Glendive, Montana. A color very hard to describe — a blending of tan and medium pink with some lime and fawn shadings. The hafts have a heavy gold bar, rich and clear in coloring. The standards are ruffled and closely held while the falls flare sharply and lay in ripples due to the ruffling. Very large in size and an iris that, as one visitor worded it, says "Welcome." 36 to 40 in. tall. M.L. Rapid increasing allows this reasonable price. **\$7.50**

QUEEN'S ATTIRE — A gay bitone of bright rosy-mulberry standards, ruffled and firmly held. The falls are rich deep mulberry set off by a bright nasturtium-red beard. A very showy flower, medium large, with a long blooming season. 37 inches. **\$7.50**

STAG LINE — A jewel for the front of the border. Size, height and form of Ebony Echo; this has a navy-blue overlay on the red coloring. 32 in. . . . **\$5.00**
